Selection of sweet treats available

Notes

* Buckwheat – despite its name buckwheat is not a wheat or even a grain but a fruit seed!

* Activated – whole nuts, pulses, quinoa and buckwheat have been ‘activated’ (soaked) to increase the nutrients available along with enhancing digestibility.

* Cultured means that it has been fermented and is served ‘live’ for a hit of gut-loving goodness.

* Miso – we use traditionally fermented miso made from soy beans and brown rice. The long fermentation process helps break down the complex nutrients in these foods rendering them easy to digest.
